

KEEP INSIDE LOCKED GLOVEBOX

ROADSIDE EMERGENCY SURVIVAL QUICK-CARD

60-Second Warning Light Triage & Spark-Free 1-2-3-4 Jump-Start Blueprint

4-STEP SPARK-FREE
12V LEAD-ACID SAFE
GLOVEBOX EDITION

SOLID AMBER = DRIVE SAFE

RED OIL CAN = STOP NOW!

RED TEMP = PULL OVER!

RED BATT = ALTERNATOR

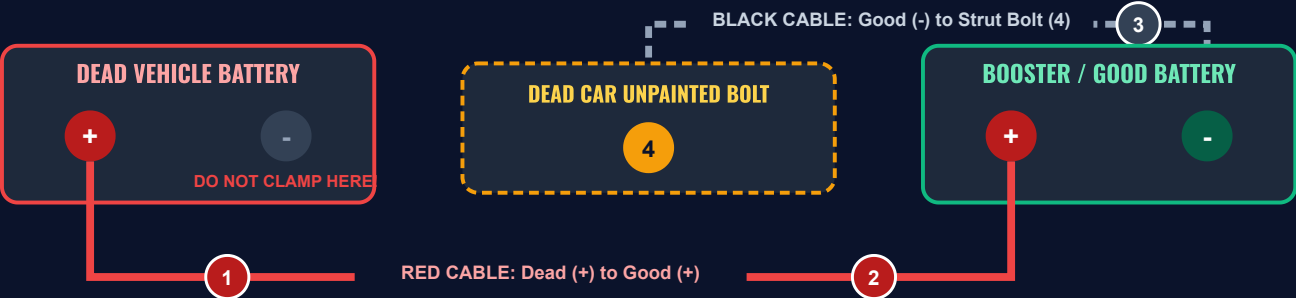

1. RED OIL PRESSURE LIGHT = SHUT DOWN!

The red oil can means **loss of oil pressure**, not just a quart low. Driving even 30 seconds to 2 minutes without oil pressure will seize metal crankshaft bearings. Pull over safely at once and shut the engine OFF.

2. ENGINE OVERHEATING = CABIN HEATER ON MAX!

Turn A/C OFF and set Cabin Heater to **MAX HOT + Full Fan** to draw heat away from the cylinders. Pull over and shut engine off. **NEVER open a hot radiator or coolant cap (severe scalding burn hazard)!**

FIGURE 5: SPARK-FREE 1-2-3-4 JUMP-START SEQUENCE (PREVENTS BATTERY GAS SPARKS)

⚡ THE 1-2-3-4 JUMP-START & HYBRID/EV SAFETY COMMANDMENTS:

Connect in order: (1) RED to Dead (+), (2) RED to Good (+), (3) BLACK to Good (-), (4) BLACK to an **unpainted metal engine/strut bolt** on the dead car away from the battery so any spark cannot ignite vented hydrogen gas. Remove in reverse order (4-3-2-1). **WARNING:** Never jump-start a cracked, leaking, or frozen battery; on **Hybrid/EV vehicles**, always check both vehicles' owner's manuals for dedicated 12V jump-start terminals and hybrid/EV restrictions.

SERVICE COUNTER WRITTEN INSTRUCTIONS

CUSTOMER REPAIR ORDER CHECK-IN RIDER &

EMERGENCY DIRECTORY

✂ CLIP OR COPY ONTO SHOP REPAIR ORDER AT DROP-OFF

CUSTOMER WRITTEN AUTHORIZATION & PARTS RETURN REQUEST

Attach to Repair Order (RO) or write these three stipulations above your signature before leaving keys

- 1. WRITTEN ESTIMATE & CAP ON CHARGES:** I authorize initial diagnostic/service work up to a maximum of \$_____. No additional repairs, teardown, or diagnostic time exceeding this amount may be performed without my prior written or texted/emailed approval specifying the exact part numbers and flat-rate labor hours.
- 2. REQUEST FOR RETURN OF REPLACED PARTS:** Pursuant to state motor vehicle repair consumer rights, I hereby request at the time of work order signature that all replaced parts, sensors, coils, and components (excluding warranty core-exchange items) be placed in a plastic bag in the vehicle trunk for my inspection.
- 3. NO UNAUTHORIZED DISASSEMBLY:** If initial testing requires mechanical disassembly beyond the fee above, stop work and contact me with a written reassembly and repair estimate before proceeding.
